BP MINERALS AMERICA

July 26, 1988

Mr. Lowell P. Braxton
Administrator, Mined Land Reclamation Program
Utah Division of Oil Gas and Mining
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Braxton:

Enclosed please find revision pages for the previously submitted Notice of Intent for Kennecott Explorations (Australia) Limited's Barneys Canyon Project. We believe that the revisions fully address the comments presented in the Division's letters of May 13 and May 25, 1988. Also enclosed are the project reclamation cost estimate and reclamation schedule. We ask that your staff review the cost estimate and schedule as soon as possible so that we can proceed with preparation of the bonding application and completion of the permitting process, preferably by mid August.

You will note that we have provided three copies of the revisions and reclamation cost and schedule. Two copies are for replacement in the DOGM's bound copies of the NOI. The third copy is intended to serve as a staff working copy; sections where changes have been made are high-lighted in the margins to facilitate more efficient review.

Please contact me or, in my absence, Mr. Robert Bayer of JBR Consultants Group, as soon as possible so that we can arrange to complete the necessary bond application forms. In addition, please have your technical staff direct any comments that they may have regarding the NOI revision or reclamation cost estimate or schedule to Mr. Bayer or Mr. Rick Pole at JBR.

Thank you very much.

Sincerely,

G. D. Schurtz
